

HOW TO PLAY

Just like a raffle, each \$2 and \$5 Jackpot Lottery has a set number of ticket numbers to be sold. Once all are sold – ie. the lottery has been fully subscribed – the draw for that particular lottery can take place.

To buy a ticket number, either complete an entry form, or just ask your NSW Lotteries agent. You may choose to be allocated either random (to a maximum of 5) or sequential ticket numbers – but remember, you can't select your own numbers.

The prize structure for each \$2 Jackpot Lottery is identical, as is the prize structure for the each \$5 Jackpot Lottery. Each lottery has a jackpot prize, which continues to grow until won.

1 How does the Jackpot work?

With Lucky Lotteries, if you win you don't have to share the prize – and that includes the jackpot prize! That's because individual prizes are won by individual ticket numbers.

Whilst a jackpot can be worth millions of dollars, they are never worth less than \$500,000 (for the \$2 Jackpot Lottery) or \$1,000,000 (for the \$5 Jackpot Lottery).

In each \$2 Jackpot Lottery or \$5 Jackpot Lottery draw, a "jackpot" ticket number is drawn from the full set of ticket numbers in the game. If that ticket number has already won a cash prize in the draw, then it wins the jackpot. If the ticket number hasn't won a cash prize, then the jackpot increases for the next draw.

2 Did you know?

- Each \$2 Jackpot Lottery has a unique, 4 digit sequential number to identify it. Each \$5 Jackpot Lottery has a unique, 3 digit sequential number to identify it.
- Fully subscribed lotteries are drawn in order – ie. The fully subscribed lottery with the lowest number will be drawn first.
- There are 11 x \$2 Jackpot Lotteries on sale at any one time – the current lottery and 10 forward, or future, lotteries.
- There are 3 x \$5 Jackpot Lotteries on sale at any one time – the current and 2 forward, or future, lotteries.

3 How do you check if you've won?
